VACANCY

HSEQ Officer (full time)

Location: Serooskerke (Walcheren, NL)

Department: HSEQ

Are you passionate and enjoy working on complex worldwide projects in the Oil & Gas industry? Do you love to work in a dedicated and dynamic team striving for the best results? Then you might be the Senior HSEQ Officer we are looking for and we encourage you to apply for this job.

About us

BlueOOS B.V. owns a variety of advanced marine assets offering an exceptional level of support to the oil and gas industry, ranging from ship management, engineering, maintenance and operational services.

The position

We are looking for a fulltime HSE Professional to support our corporate team in Serooskerke (The Netherlands). You will work with the HSEQ team and management to provide effective and efficient HSE services to our operations as well as HSE Management services for the shore-based departments.

Tasks and responsibilities

- Assisting the vessels in daily HSE related matters in close cooperation with the Safety departments on board;
- Provide updates to the shore-based departments and vessel-management of changes in legislation, class rules and industry standards within their area of competence;
- Make recommendations for improvements on HSE related matters;
- Work proactively and deliver a seamless HSE service, providing support where necessary to meet service quality requirements.
- Analyzing accident/incident data from assigned vessel(s), participate actively in improving the safety management systems;
- Develop HAZID's and HAZOP's;
- Conduct scheduled (audit plan) and un-scheduled audits onshore as well as on board the vessels. Provide audit reports and follow up on audit action items;
- Accompanies client HSE visits/audits to the unit and provides a follow up on actions resulting out of these visits;
- Initiates and develops new procedures, working instructions or Newsletter articles relating to HSE(Q) matters, whenever necessary to improve HSE(Q) performance.

Job and skill requirements

- Minimum Bachelor degree in Maritime or relevant areas;
- Internal or lead auditor competence is preferred;
- Excellent skills in spoken and written English;
- Knowledge of marine and offshore/drilling operations, relevant international and local legislation, flag state and class rules;
- Knowledge of ISO standards 9001/14001/45001;
- Relevant experience in shipboard management and/or HSE related activities within the shipping or offshore oil and gas industry;
- Recognition of relevant experience in place of formal qualifications is acceptable;
- Computer literate and familiar with Microsoft Office Packages including database applications;
- Willing to travel on regular basis;
- Can act as Company Security Officer (CSO)

What can we offer you?

- A key role in a growing international company
- Supportive and collaborative team culture
- Opportunities for professional development
- Competitive salary and benefits package
- Pension scheme
- Social and Team building activities
